

# SOGFASH TRAINING COURSE AT IED MADRID

We're excited to share some details about an upcoming training course in Madrid hosted by IED Madrid. From May 22nd to May 28th, 2023, we will be hosting a unique training course at IED Madrid Point 2. This course will be dedicated to empowering NEETS women and women over 55 with skills in traditional techniques by giving them an opportunity to learn through workshops based on toolkits developed by our partners.

Each day of the course will be dedicated to a different partner, who will lead workshops related to their area of focus within circular economy practices in fashion production. These workshops will cover a range of topics, from impact models in sustainable entrepreneurship, zero waste pattern cutting or sustainable sourcing

But that's not all! In addition to the workshops, participants of the training course will have the opportunity to visit some of the local sustainable fashion brands to explore real-life circular production practices. This will be a unique chance to gain hands-on experience with circular fashion production and see how it works in practice.
